

## FR.L. UNITS (MIDDLE)

| Model  | Pore size | Flow rate<br>$l / \text{min}$ | Pressure<br>Range  | Operation                       | Material            | Drain               |
|--------|-----------|-------------------------------|--------------------|---------------------------------|---------------------|---------------------|
| SBB-02 | 1/4"      | 1700                          | 0.05~0.85<br>(MPa) | Diaphragm<br>type<br>regulation | Body:               | -S: Semi-auto drain |
| SBB-03 | 3/8"      | 1700                          |                    |                                 | -H: Manual drain    |                     |
| SBB-04 | 1/2"      | 4000                          |                    |                                 | -A: Auto drain      |                     |
| SBB-06 | 3/4"      | 4000                          |                    |                                 | * Standard drain: H |                     |
